Methodology Changes

New question in SDG 17 looking at assessment of sustainable education

Question will not be scored in 2025, but will allow us to understand progress

- Are you assessing the level of sustainability literacy of your students?
- If yes, are you using Sulitest TASK or another system?
- What proportion of your student population is assessed?

Process Changes

- Only one piece of evidence will be used
 - This will simplify assessment
 - Some questions will be split into two as a result
- We will use AI (Large Language Models) to support assessment
 - Improvement to consistency
 - Stronger feedback
- Data collection dates :

Opens on the 16th of September 2024 and closes on 11th of November 2024
